Professional Summary

Flutter Developer with over 2 years of experience building and deploying cross-platform applications for Android, iOS, and Windows. Proven in delivering production-ready solutions across E-commerce, Healthcare, and E-learning domains, with successful Play Store deployments. Strong in end-to-end development, REST API integration, Firebase services, and modern state management. Experienced in agile team environments, focused on building scalable, user-centered applications with measurable business value.

Core Competencies

- Cross-Platform Mobile Development
- RESTful API Integration
- State Management (GetX, Provider, Bloc)
- Firebase Services
- UI/UX Design Implementation
- Version Control (Git, GitHub, GitLab)
- Agile/Scrum Methodologies
- App Store & Play Store Deployment
- Performance Optimization & Debugging
- Code Review & Quality Assurance

Professional Experience

Bintel Future Tech (Sister concern of TRSP) **Dhaka, Bangladesh**
Application Developer *Nov 2024 – Present*

- Architected and deployed multiple production applications across Android, iOS, and desktop platforms using Flutter framework, achieving 99% crash-free user sessions.
- Led development of two e-commerce book-selling applications (**TRSP** & **BD Books**), achieving 10,000+ downloads on Google Play Store.
- Engineered e-learning platforms (**Big Bang Exam Care** & **TRSP Exam Lab**) featuring quiz modules and real-time Firebase synchronization.
- Developed healthcare management application (**TimeCare**) integrating appointment scheduling and secure REST API backend.
- Built **Subscription Manager** application (Mobile & Desktop) to track service renewals and departmental usage using Firebase and Local Notifications.
- Created **Dev Work Management** system to streamline client-developer workflows with real-time conversations and task tracking.
- Collaborated with backend team to optimize API response times by 40% through efficient data handling and caching strategies.

Alphabyte Technology Ltd.   **Dhaka, Bangladesh**
Junior Software Engineer   *Oct 2023 – Nov 2024*

○ Developed and maintained 3 Flutter applications for Android and iOS platforms following Material Design guidelines.
○ Built **Care4You** healthcare agency app implementing booking systems, SQLite offline storage, and REST API integration.
○ Created **LastPrice** e-commerce platform with real-time bidding, inventory management, and secure payment processing.
○ Engineered **AdiBook** (**Student App** & **Instructor App**), driving school application with offline-first architecture using SQLite.
○ Participated in agile sprint planning and daily standups, consistently delivering features ahead of schedule.

Technical Skills

Languages: Dart, C, Python, SQL

Frameworks: Flutter Framework, RESTful APIs, Firebase (Auth, Firestore, Cloud Functions), SQLite, GraphQL

State Management: GetX, Provider, BLoC

Tools: Git, GitHub, GitLab, VS Code, Android Studio, Xcode, Postman, Firebase Console

Additional: Unit Testing, App Store Optimization (ASO), Performance Profiling, AI-Assisted Development

Education

Daffodil International University (DIU)   **Dhaka, Bangladesh**
Bachelor of Science in Computer Science & Engineering, CGPA: 3.15/4.00   *2019 – 2023*

Leadership Activities

○ General Secretary, Cyber Security Club, DIU — Led club initiatives and organized awareness events.
○ Executive Member, DIU Robotics Club — Contributed to robotics projects and technical workshops.

Additional Information

○ Available for full-time roles (on-site, hybrid, or remote)
○ Strong communication skills in English and Bengali
○ Portfolio: abusufian.engineer
